

# Mobility Resources

## **How to use this list**

The Shambhala international working group on Accessibility and disability (A&D) is charged with helping and guiding accessibility efforts for both physical environments and electronic media. This list contains resources you may find useful in your accessibility journey. There are two other documents you might find useful: a brief introduction to the topic of mobility impairment ([link here](#)) and an mobility accessibility checklist ([Link here](#)) appropriate for centres of various sizes. There are similar sets of documents for hearing disabilities and vision disabilities, with plans for more.
